

Mountain : dash-dot-dot (blue line)  
 Valley : dash-dash (black line)

**This side face down** when starting steps 1 & 2. Then turn around as needed for the rest.

You can ignore the alphabets. They mark the corners, giving hints on how a fold brings the corners together.

**Tail of wing**

You need not follow the lines exactly. You can adjust the size of the wing (6), if you like. The important thing is the left and right side must be the same (symmetrical)

**Tail of wing**
